

Square Root Clock Version #2 HARD!

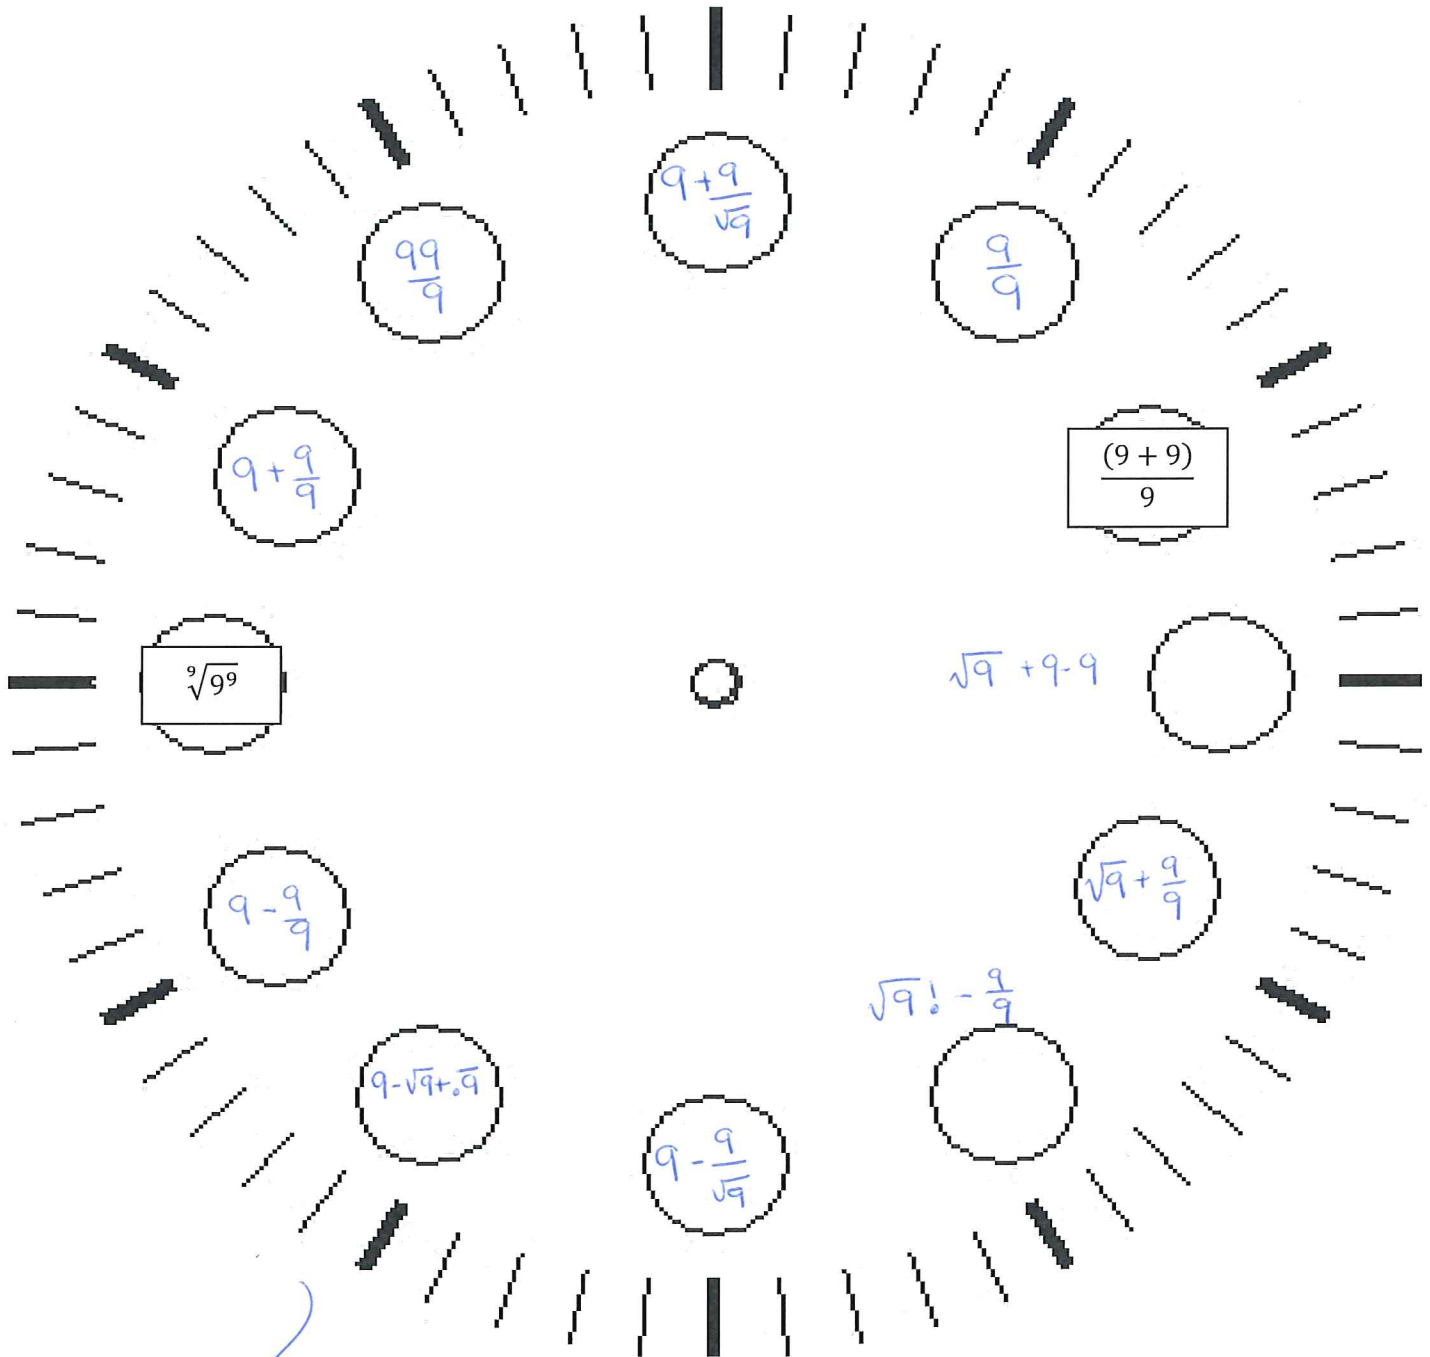

Using ONLY the digit "9" create expressions that will result in an accurate clock face. I've given a couple to get you started.

Solution

Square Root Clock Version #2 HARD!

Using ONLY the digit "9" create expressions that will result in an accurate clock face. I've given a couple to get you started.

and yes... $7.999\dot{9} = 8$ ☺
