

SD83 Enrollment Update

JANUARY 17, 2023

SCHOOL DISTRICT NO. 83 (NORTH OKANAGAN-SHUSWAP)
STUDENTS FIRST | ORGANIZATIONAL EFFICIENCY | CULTURE OF HEALTH & WELLNESS

School Graph Explanations

Ministry Capacity = The capacity of a school as defined by the Ministry of Education and Child Care. This number does not necessarily reflect recent changes to instructional spaces and/or additional of portable classrooms

Functional Capacity = The capacity of a school taking into account changes to schools, additions of portables, special programs in the school, and class size and composition language in the Collective Agreement

In some rare cases, the Ministry and Functional Capacities of a school are the same. Typically, the Ministry Capacity is larger.

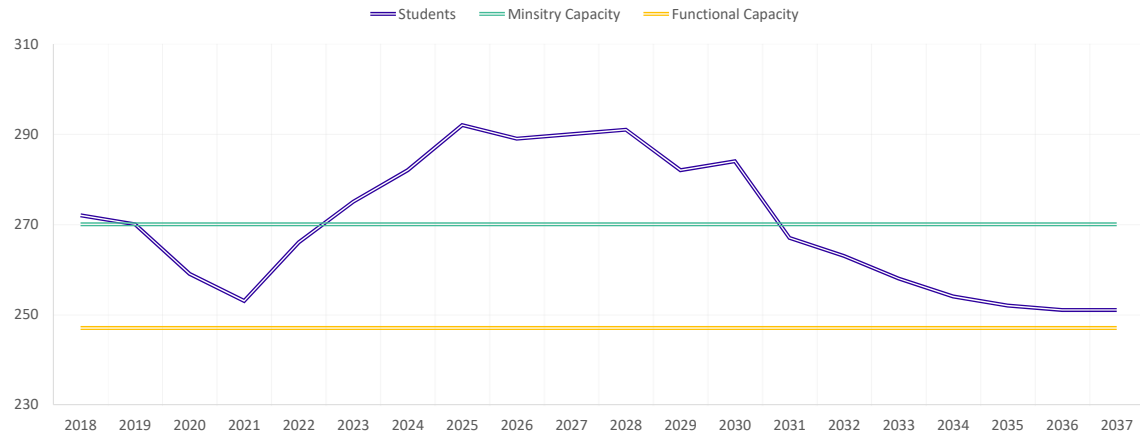

On each elementary school graph, each box equals twenty students. On middle and secondary graphs, each box equals fifty students.

STUDENTS FIRST | ORGANIZATIONAL EFFICIENCY | CULTURE OF HEALTH & WELLNESS

Armstrong Zone Considerations

Armstrong Elementary School continues to operate at capacity and is projected to do so until Baragar projects the pressure will begin to soften in 2031.

Highland Park Elementary School continues to have space to allow for overflow from Armstrong Elementary School. Baragar projects that this will become more challenging at the end of this decade.

Baragar projects that Falkland Elementary School will continue to see enrollment growth over the next ten years, with Ministry capacity possibly being exceeded in 2030.

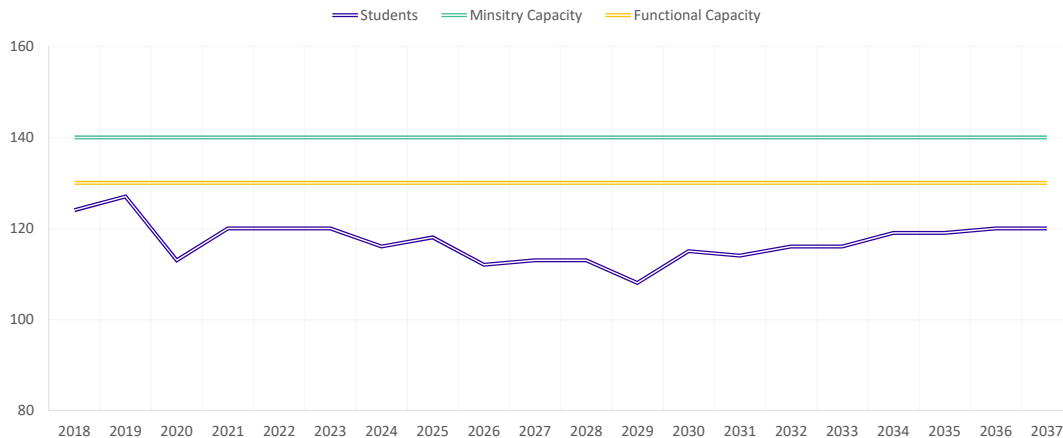

Len Wood Middle School and Pleasant Valley Secondary School will continue to have excess capacity.

Enderby Zone Considerations

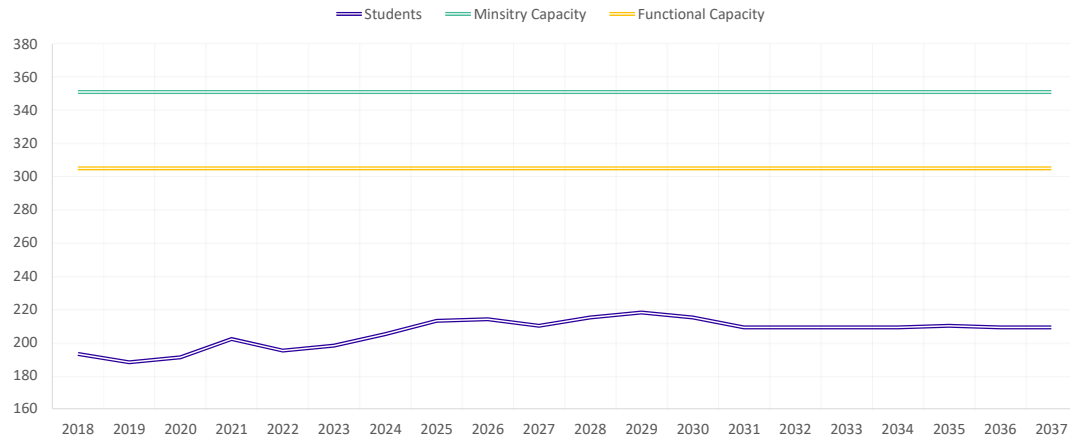

M.V. Beattie Elementary School continues to experience enrolment growth which will soften over the next several years. There may be a need for an additional portable classroom at this school.

Grindrod Elementary School continues to have capacity to accept students from the M.V. Beattie catchment, and this will help M.V. Beattie with its capacity concerns.

A.L. Fortune Secondary School continues to have excess capacity.

Salmon Arm (Elementary/Middle) Considerations

Overall we continue to have capacity issues at some Salmon Arm schools, while having excess capacity at others. Catchment areas may have to be looked at in the future to address new residential buildings in the downtown, Hillcrest, and uptown areas of the city of Salmon Arm.

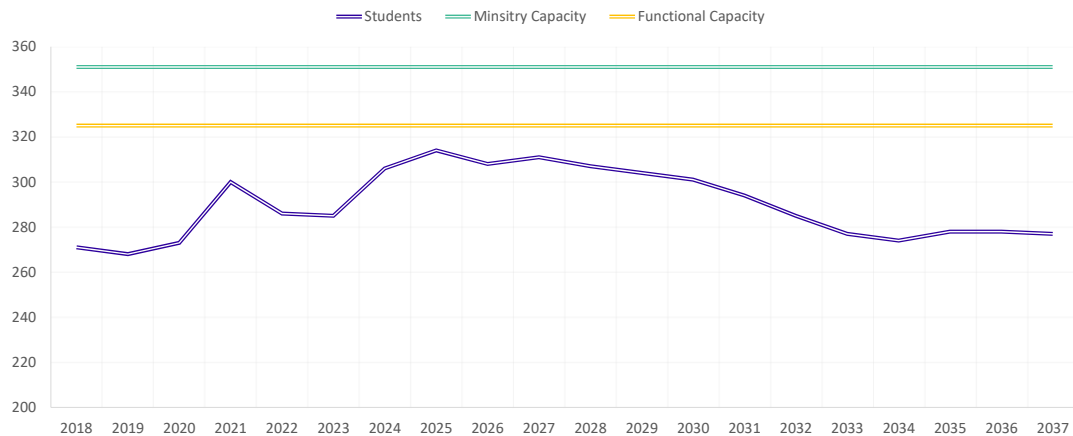

Shuswap Middle School enrollment has plateaued from its recent growth and looks to be slightly under capacity for the next decade.
